

SATISH KUMAR CHAUBEY

Frontend Engineer

8299805407 | satishchaubey02@gmail.com | Ghaziabad, Uttar Pradesh, India

PROFILE SUMMARY

Frontend Engineer with 3+ years of experience building scalable, high-performance web applications using React.js, Next.js, and TypeScript. Solid understanding of the MERN stack and experience collaborating with Node.js/Express backends. Skilled at designing and integrating REST APIs, including third-party and LLM-based APIs, into production frontend workflows. Focused on clean architecture, responsive UI, and performance optimization.

TECHNICAL SKILLS

- Frontend: React.js, Next.js (App Router & Page Router), JavaScript, TypeScript, Redux Toolkit
- MERN Stack: MongoDB, Express.js, React.js, Node.js — working understanding across the stack
- API Integration: REST API design & integration, Payment Gateway APIs (PayU, Razorpay), basic LLM API integration
- UI/Styling: Tailwind CSS, ShadCN UI, Radix UI, SCSS, MUI, Bootstrap
- Database: MySQL, MongoDB
- Tools: Git, GitHub, Postman, VS Code
- Other: Microservices Architecture (working knowledge), Performance Optimization

EXPERIENCE

Software Engineer — Plutos One Pvt. Ltd.

Feb 2024 – Present

- Led frontend development for SaaS and banking platforms using Next.js and React.
- Developed and optimized 30+ enterprise application pages.
- Built dashboards (CBMS, EMS, VMS) that improved workflow efficiency.
- Integrated PayU and Razorpay payment gateways securely.
- Collaborated with Node.js and FastAPI backend teams within a microservices architecture; improved performance by 20% using caching, optimized API calls, and lazy loading.
- Integrated REST and LLM-based APIs into frontend workflows for structured data handling (~3-4 months hands-on).

Front-End Developer — Speqto Technology Pvt. Ltd.

June 2023 – Jan 2024

- Built reusable UI components with React.js, Next.js, and Vite.
- Integrated decentralized wallet workflows with REST APIs.
- Worked on blockchain-based applications and BSC smart contract integration.
- Optimized responsiveness and cross-browser compatibility.

MERN Stack Intern — Techpile Technology Pvt. Ltd.

June 2022 – May 2023

- Developed full-stack applications using MongoDB, Express, React, and Node.js.
- Built interactive UIs using React, Redux, and Bootstrap.
- Developed backend APIs and integrated databases.

PROJECTS

Orbit Website — Plutos One

- Built the complete frontend using Next.js, delivering a fast, responsive production website.

Plutos One Corporate Website

- Developed the full frontend in Next.js for the company's corporate/marketing website.

CSC Bill Payment Platform

- Built both frontend and backend using Next.js, Node.js, Express, MongoDB, and Redis.
- Engineered for high traffic, reliably handling ~20,000 transactions per day with strong uptime and performance.

SVC Bill Payment Platform

- Developed a bill payment workflow handling ~3,000 transactions per day.

Call Monitoring Dashboard

- Built monitoring dashboards for automated call workflows, integrating LLM-based call analysis APIs.

Bound Finance (Contract)

- Developed finance-focused web modules using React, Next.js, and TypeScript.
- Integrated blockchain smart contracts into frontend workflows.
- Built reusable components and optimized complex flows.

Best Sky Fare | bestskyfare.com

- Developed a responsive travel booking platform using Next.js and Tailwind CSS.
- Built FastAPI backend services for flight workflows.

- Integrated real-time REST APIs with validation and error handling.
- Implemented SEO improvements and mobile optimization.

Alfa Healthcare Centre (Ongoing) | alfahealthcarecentre.com

- Developing a healthcare website with an appointment booking system; handling deployment, hosting, and optimization.

EDUCATION

Bachelor of Computer Applications (BCA)

ITM College of Management, Gorakhpur — 2019 – 2021

CERTIFICATIONS & INTERESTS

- MERN Stack Developer Certification
